Regarding one drive/sharepoint, we already have one set up for Tribal FIP Development. It was in Quick Place and was migrated to Sharepoint. I just need to figure out how to access it and use it.

Subject: U&O FIP schedule

Hi there,

I placed an excel file draft schedule on the G drive. The old word version from FBIR was always awful to work with, but it was what Kate wanted. The spreadsheet is very much a draft with rough timeframes and tasks, so feel free to edit as appropriate. We will need to think about OMB review and the time needed for that as well. We will also need to set up a one drive/sharepoint site for sharing documents etc. If we need someone to do this for us, let me know.

Thanks,

Dec
